EXPERIENCE

XalesFlow --- xalesflow.com

2025-Present

Software Engineer

Lagos Nigeria

Desktop-based Sales Automation & Inventory Management Software

- Developed a cross-platform desktop application using Electron.js and React.
- Implemented an offline-first architecture using IndexedDB, enabling continuous functionality without internet access.
- Developed a multi-terminal synchronization system via a local file-based network structure, ensuring smooth coordination across sales points.
- Added support for customer credit tracking and due date management for improved financial control.
- Enhanced the system with features like goods transfer invoicing, receipt backup, QR codes, and automated data syncing.

Freelance Web Developer—ojeefoundation.org

2025- Present

Lagos Nigeria

- Designed and developed the official website for Ojee Foundation, a non-profit focused on community development.
- Built a responsive and accessible UI using HTML, CSS, JavaScript, and modern frameworks.
- Integrated donation features, dynamic event listings, and contact workflows.
